Office of Legislative Counsel

Wednesday - 30 September 1953

- - - -
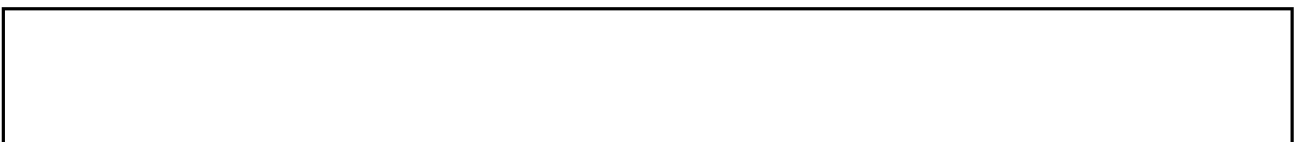

1. The House Un-American Activities Committee is loaning us the transcript of the Executive Session testimony of [   ] This   25X1A
25X1A   will be made available to [   ] who will arrange in turn to make it available to Amb. Lodge with proper security safeguards.

2. Senator Saltonstall, accompanied by General Mudge, of the Senate Armed Services Committee staff, is planning to go to Europe on 8 November for about three weeks. The Senator will not be in Washington prior to his departure, but General Mudge is returning approximately 15 October. As the latter has handled the CIA legislation and has been with the Committee staff since 1946, it is recommended that I contact General Mudge to see if we can be of any assistance on the Senator's trip. If necessary, we should be prepared to brief the Senator either in New York or Boston.

3. The announcement of a proposed joint Senate/House Foreign Affairs Committee trip to the Far East, including Senator Alexander Smith, is probably premature, and it well may be that Senator Smith will not go at all.

25X1   ✗   4. The office of Congressman Fulton (R., Pa.) called to request any public material CIA might have regarding its activities which the Congressman desired to present to a local library in his district. I informed Mr. Fulton's office that we had no such material but that we might be able to furnish a few maps which the Congressman would find useful for a library.

5. Senator Knowland has been delayed in his return, and therefore the briefing for 3 October has been postponed until next week.   25X1

✗   7. Mr. Cahn, Counsel to the Senate Foreign Relations Committee, has forwarded to me the galley proofs of the proposed S. Doc. 47, The Internal Security Manual, with a request for any suggestions or corrections which we may have. Our comments have been dispatched to Mr. Cahn.
